GRAND CIRCUIT RACES

Opened at Cleveland with the Breaking of Two World's Henords Yesterday, Fastest Stace of the Season was Trotted. CLEVELAND, O., July 25.—The breaking of two world's records and one season record mark the opening of the grand circuit races at the Glenville track this afternoon. The first event, the 2:15 trot, was the fastest race this season and in the second race, the 2:10 season and in the second race, the 210 pace, the world's record for pacing mares was clipped from 205% to 205% in the first heat. In the next mile Searchlight, another member of the California outfit, reduced the mark for four-year-olds to 204%, going under the record two seconds.

Separately the leasts in the trot were not marvelous, but collectively they form the fastest trotting race of the record.

FIRST DAY'S RACES

Of the Wheeling Jockey Club's Meeting To-day-Rain Yesterday.

Yesterday the running meeting of the Wheeling Jockey Club was to have been inaugurated on the state fair grounds track, and all arrangements had been made for an auspicious open-ing. The elements, however, entered a whose emphasis was not to be

veto, whose emphasis was not to be disresarded, so the programme for Monday will be in evidence at the postponed opening this afternoon.

Yesterday afternoon the track was a sea of mud, but after the rain had beased, a force of men went to work and it is expected that the track will be in good condition this afternoon.

About two hundred out-of-town sports are in the city, including a delegation from Pittsburgh, who will attend the races. It is expected to arrange popular price excursions from Pittsburgh before the end of the week.

With good weather this afternoon, there will no doubt be a large attendance. The officials of the club promise fast and square racing at all stages.

Work of the Rad Cross to

The executive committee of the Red Cross auxiliary held an interesting meeting last night, one of the important features being the reading of a letfor tenures being the reading of a let-ter from the parent society of New York, containing a list of articles that are needed most. With the receipt of the letter the society in this city can work to better advantage and attain more practical results. The society stands in need of many things, and the most pressing necessity is money. The stands in need of many things, and the most pressing necessity is money. The ladies engaged in this work are giving their time to a noble philanthropy, and it is not fair to expect them to give their money too. There are a number of Wheeling soldlers in the field, which there are many things that can be sent them that will add to their comfort or ameliorate the severity of camp life or active duty, and that is why the generous public should beetly itself. Lagging in such a cause is not in keeping with the reputation of this city in the way of a liberal response to the demands of a worthy object.
